4. Dyslexia Screening Summary Student Counts K-3

The following section describes how Clearbrook-Gonvick School District (2311-01) engaged in screening for characteristics of dyslexia, and the number of students demonstrating characteristics of dyslexia. NOTE: demonstrating characteristics of dyslexia is not the same as a diagnosis of dyslexia.

Clearbrook-Gonvick School District (2311-01) used the following process to administer the Nonsense Words subtest to measure decoding skills in grades 2 and 3:

Gated: ONLY Oral Reading Fluency Words Correct Per Minute was used to determine which students received the Nonsense Words subtest

The following criteria was used to determine which students are demonstrating characteristics of dyslexia:

Vendor composites using vendor benchmarks

5. Screening Tools 4-12

The Minnesota READ Act requires that students in grades 4-12 who are not reading at grade level be screened for characteristics of dyslexia. In the 2024-25 school year the tool(s) used for dyslexia screening was locally determined.

The table below details the screening tool(s) used by Clearbrook-Gonvick School District (2311-01) to perform dyslexia screening and the criteria used to determine if students are demonstrating characteristics of dyslexia.

Dyslexia Screening Tools Used in Grades 4-12 in School Year 2024-25

Grade 4			
Grade 5			
Grade 6			
Grade 7			
Grade 8			
Grade 9			
Grade 10			
Grade 11			
Grade 12			

The MDE approved tool for screening for characteristics of dyslexia for students in grades 4-12 is Capti ReadBasix. Beginning in the 2025-26 school year, this tool must be used to screen students who are not reading at grade level for characteristics of dyslexia.

The following method will be used by Clearbrook-Gonvick School District (2311-01) to determine which students in grades 4-12 are not reading at grade level:

The plan for both the frequency and timing (e.g. Fall, Winter, Spring) of administration of Capti ReadBasix for students in grades 4-12 who are not reading at grade level is locally determined and includes:

Students who did not "meet" or "exceed" on their MCA reading test from spring of 2025. Students in grades 3-8 and 10th grade all take the reading MCA so students in grades 12 will use their MCA reading scores from 10th grade.

6. Dyslexia Screening Summary Student Counts Grades 4-12 (Optional for 2024-25 School Year)

The following table displays the number of students in Clearbrook-Gonvick School District (2311-01) who were identified as not reading at grade level, were screened for characteristics of dyslexia, and are demonstrating characteristics of dyslexia. NOTE: demonstrating characteristics of dyslexia is not the same as a diagnosis of dyslexia. (The reporting of this data is optional for the 2024-25 school year)

During the 2025-2026 school year we plan to distribute parent fliers with additional information and will have a plan to utilize our district social media page for communicating to families about literacy. Finally, we have a goal to have a literacy booth at our parent/teacher conferences.

8. Data-Based Decision Making for Action

READ Act screening data should be the basis for data-based decision making to determine which students need more support in reading. This could include differentiation of core (Tier 1) instruction, supplemental (Tier 2) or intensive (Tier 3) instruction.

Clearbrook-Gonvick School District (2311-01) uses the following process and data to assure that evidence-based instruction and intervention matches to a student's needs:

Universal screening, using FastBridge, is administered three times a year for students in grades K-6, allowing us to gather comprehensive data on their reading, math, and social-emotional abilities. The data serves as a foundation for determining targeted instruction tailored to each student's needs. Students who demonstrate reading skills below grade level undergo diagnostic assessments to guide instruction within the Tier II interventions. Struggling learners are provided with either individual or small group interventions at increasing levels of intensity to accelerate their rate of learning. Progress monitoring for Tier II interventions occurs weekly, ensuring that adjustments can be made based on student needs. Intervention teachers will analyze sub-test scores from CAPTI Read Basix and Fast Bridge Screeners to determine the specific course of action for individual students.

The processes for monitoring fidelity and differentiating Tier 1 instruction include:

All students begin here with high-quality, scientifically-based instruction in the general education classroom. Universal screening and progress monitoring provide information about a student's learning rate and level of achievement, both individually and in comparison with their peer group. This data is then used when determining which students need closer monitoring or intervention.

Criteria for entrance into supplemental (Tier 2) and/or intensive (Tier 3) targeted reading intervention include:

Tier II – Based on data from universal screening and progress monitoring, supplemental intense interventions are provided in small groups. These interventions are administered by ADSIS teachers and/or our elementary intervention teacher, in addition to the existing high-quality general education teaching in Tier I. Tier III – Supplemental intense interventions typically totaling 5 days per week for 30 minutes. This additional support is typically in addition to the instruction in Tier I and Tier II. This tier will be administered by the most highly-trained staff which may include literacy specialists, special education staff and/or general education teachers. Student identification, placement, and duration in each tier are predetermined based upon screening assessments, cut scores, and program decision protocols.

Progress monitoring data collection for students in Tier 2 occurs: Once every two weeks

Progress monitoring data collection for students in Tier 3 occurs: Once a week

Local Literacy Plan for Clearbrook-Gonvick School District (2311-01)

The kindergarten - 12th grade progress monitoring protocol that has been established to determine any necessary intensifications or modifications of supplemental (Tier 2) and/or intensive (Tier 3) targeted reading instruction include:

K-6 progress monitoring for Tier 2 and Tier 3 students occurs every other week or weekly using FastBridge progress monitoring assessments. Within our intervention curriculum, there is a mastery check after every third lesson to determine next steps.

Criteria for exit from supplemental (Tier 2) and/or intensive (Tier3) targeted reading intervention include:

When a student is able to read at "grade-level", students are exited from supplemental and/or intensive intervention. This will be determined through progress monitoring and at screening periods. This may be moving from one tier to another, discontinuing supplemental or target intervention, or moving to special education if they qualify.

Does Clearbrook-Gonvick School District (2311-01) use personal learning plans for literacy:

No

The following students are provided a personal learning plan for literacy:

- No data entered

The following components are included in the personal learning plans, if used:

9. Multi-tiered System of Supports (MTSS)

Districts are strongly encouraged to adopt a Multi-tiered System of Supports (MTSS) framework. This framework should include a process for:

- monitoring student progress
- evaluating program fidelity, and
- analyzing student outcomes and needs

in order to design and implement ongoing evidence-based instruction and interventions.

[Minn. Stat.120B.12, subd. 4a \(2024\)](#). MDE has developed the [Minnesota Multi-Tiered System of Supports](#) (MnMTSS) Framework and encourages districts to adopt this framework when implementing MTSS.

10. Core Curricular Resource Grades K-5

The Minnesota READ Act requires that districts use evidence-based curriculum materials at each grade level that are designed to ensure students mastery of phonemic awareness, phonics, vocabulary development, reading fluency, and reading comprehension. In 2024 MDE partnered with the University of Minnesota Center for Applied Research and Educational Improvement (CAREI) to identify literacy curricula that are evidence-based and aligned to structured literacy. The findings of this review can be found on the [MDE READ Act Curricula Resources-Tier I webpage](#).
